Mission Statement

Lorain County Department of Job and Family Services is committed to promoting the dignity and self-worth of those in need. We believe that given a choice, people prefer self-sufficiency. It is our mission to maximize available community resources to support, encourage, and assist families and individuals in achieving their goals for self-sufficiency; to assist in elimination of barriers; and to respond to ever-changing needs in a progressive, caring, professional manner.

Lorain County Job & Family Services

2015 Annual Report

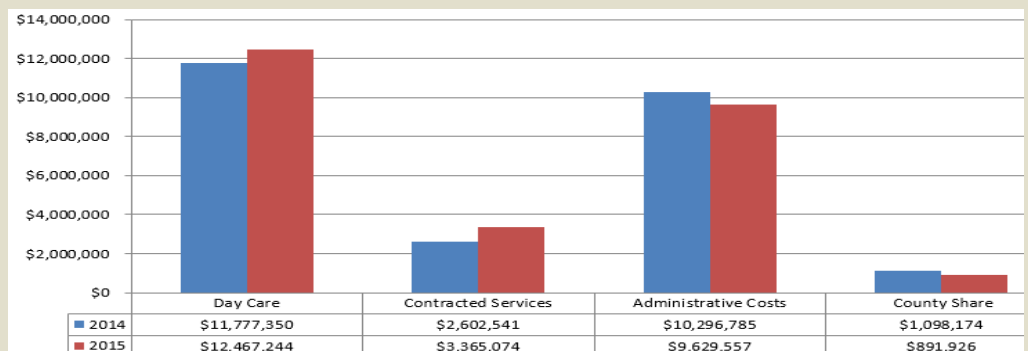

Snapshot of 2015

- Eligibility for Medicaid was extended to adults with an annual income up to 138% of the Federal Poverty Level. Lorain County received 17,576 applications electronically in the new Ohio Benefits system in 2015.
- Our In-House Work Experience Program began in June, 2012. WEP provides OWF cash assistance recipients and FAET Food Assistance recipients an opportunity to acquire skills necessary to obtain employment. A total of 1165 individuals logged 23,451.75 hours of participation in the program.
- The Child Support Enforcement Agency collected \$39,330 through an amnesty program held in 2015 and completed 211 license reinstatements.
- In 2015, our agency delivered 5,010 voter registration forms to the Board of Elections.
- Lorain County again administered the Ohio Fuel Fund. We assisted 778 families who were behind on their Ohio Edison electric bills. The total funds issued were \$177,051.
- The Income Maintenance Call Center averaged 19,374 phone calls per month in 2015. The total number of clients seen in the main lobby averaged 6,770 per month. The phone operator also assisted with logging mail and placing long distance calls for a monthly average of 2,241 actions.
- The Lorain County received the SNAP (Food Assistance) Recovery Leader Award for 2015.

2015 Expenditures by Category

Comparison of Expenditures: 2014-2015

Family Employment and Support Services - 2015

The Family Employment and Support Services (FE/SS) Division provides economic support to individuals in Lorain County in need of financial assistance through cash, medical, and food assistance programs.

SSI Case Management

Disability Assistance recipients are helped through the SSI Case Management program with the SSI application and appeal process. SSI financial assistance from the Social Security Administration results in increased personal income and a cost savings to the Disability Assistance Program. We have found many individuals are mostly concerned with obtaining healthcare coverage. Medicaid Extension is meeting that need, which has resulted in a decrease in the number of individuals applying for the \$115 monthly grant. Fifty-four individuals were served through this program gaining eligibility for SSI, with \$85,008 in SSI reimbursement to the Disability Assistance fund. One hundred thirty individuals currently receive Disability Assistance pending SSI approval. Most of these individuals had been approved for DA prior to the Medicaid Extension and are awaiting final review of their SSI.

Investigation

The primary responsibility of the Investigative Unit is to investigate taxpayer complaints and allegations of welfare fraud by assembling the best available evidence including documents and accounts of witnesses. Claims were established on 1,684 cases, totaling \$3,658,152 which is subject to collection. Upon review of evidence and specific criteria cases may be referred to the Prosecutor's Office for possible legal action.

Claims Processing

The Claims Processing Unit pursues collection of OWF, PRC, Medicaid, Disability Assistance and Food Stamp overpayments. Referrals are made to the Investigative Unit for further action if a client fails to cooperate in making restitution or if an intentional program violation has been committed. In conjunction with Claims Processing, the Treasury

Offset Program (TOP) assists in collection of delinquent Food Assistance and OWF accounts by diverting federal and state income tax refunds to the department. A total of \$1,656,340 was collected in 2015 through installment payments, grant and coupon reductions, lump sums, and TOP intercepts. One hundred forty nine individuals

were disqualified from receiving future benefits for committing Intentional Program Violations with their claims totaling \$403,438.

Lorain County received the SNAP Recovery Leader Award for 2015.

Ohio Works First (OWF)

The OWF program is a work performance program to earn cash assistance. OWF provides short-term, time-limited cash assistance to families while they develop skills leading to self-sufficiency. The three year lifetime limitation may be waived for those meeting Hardship criteria as determined by the Time Limit Extension Review Team; or those with Good Cause who may receive OWF cash for up to an additional 24 months

after being off cash assistance for 24 months. Adults in one and two-parent households must participate in work activities for 35 to 55 hours per week until employment and self-sufficiency are obtained.

Ohio Works First cash rolls increased by 18% in 2015. ADCR and ADCI increased to 3,534 individuals receiving assistance, including 2,803 children. The ADCU program, two-parent households,

increased to 115 individuals receiving assistance, including 64 children. Hardship extensions were issued to 21 families. There were no Good Cause exemptions in 2015.

Food Assistance

Food Assistance is a federally funded program designed to subsidize family and individual income to purchase food necessary for maintaining good health. Lorain County continued to strive to deliver these benefits with accuracy, while meeting or exceeding strict federal and state performance standards. Individuals between the ages of 18-50 years old must have a work activity or meet an exemption in order to qualify for Food Assistance.

Lorain County had 39,489 individuals receiving Food Assistance averaging \$123/month per household member, this is a 1% decrease from last year.

Medicaid

Medicaid is a federal and state funded program for health care coverage for children, adults, families, aged, blind and disabled. The scope of coverage includes prescription drugs, medical services including inpatient and outpatient care, family planning services and special equipment. The State contracts with several Managed Care Plans to deliver services in an effort to reduce costs and save taxpayer dollars, yet still provide quality health care services to eligible citizens. Medicaid works in conjunction with Medicare and private health insurance plans. In 2015, we received 17,576 Medicaid applications electronically in the new Ohio Benefits system (OBWP).

The expectation for July 2016 is that all 14, 252 ABD Medicaid cases be converted to OBWP. We are also expecting major changes in ABD Medicaid which are still in draft rules. So far, we have heard that the need standard will slightly increase, the Spenddown Program will be eliminated, and long term care cases will have to set up a Miller Trust. We are anxiously awaiting the roll out of the updates in OBWP to support these changes.

Case Management

Case Management works with identified individuals and families who are struggling with multiple barriers in following through with the process of applying for SSI and/or Medicaid. Those individuals are assigned a case manager that will assess the barriers, and give guidance throughout the application processes. They work towards obtaining the medical records required to determine the disability, coordinate doctor's appointments and transportation services as needed. We currently have 28 cases pending the disability determination process.

Child Care

The Child Care Unit enables parents who are on OWF or income eligible, and either employed or attending school or training to receive child care. This care is provided at licensed centers or in certified child care homes.

In 2015, there was an average of 1,651 families being served on a monthly basis. Child Care provider workers certify and monitor approximately 102 Type B professional providers throughout Lorain County.

Non-Emergency Transportation and Employment Transportation

The NET Program assures non-emergency transportation for Medicaid recipients to services delivered by Medicaid Providers. This program allows clients to receive medically necessary transportation for dialysis, radiation, chemotherapy treatments, and other routine medical services. Clients can receive mileage reimbursement or passes for Lorain County Transit, ambulette services or taxi services. A total of 488 clients are using this service.

Information and Referral

The Information and Referral Unit (I & R) sees individuals who have needs that are not met by public assistance programs. If the need can't be resolved with agency resources, they work with other social service agencies in the county to help coordinate assistance. In 2015, the unit assisted 1,818 individuals which resulted in 1,899 referrals to other organizations. In addition, the unit processed applications for the Fuel Fund, which assisted families with payments towards their electric bills. There were 778 households that benefited from the program, with a total of \$177,051 being applied towards past due bills.

Adult Protective Services

Lorain County Department of Job & Family Services is mandated to investigate reports of elder abuse, neglect, or exploitation of individuals sixty and older. Adult Protective Services workers arrange a wide variety of social services directed toward eliminating or reducing the endangerment faced by at-risk older adults. Emergencies are investigated within 24 hours, and all other reports within three working days. The unit investigated 376 new reports in 2015. Ongoing case management is provided for those at-risk clients who require it.

Joining Forces

Joining Forces operates in collaboration with the Lorain County Joint Vocational School. A full-time social service worker provides supportive services for 9th and 10th graders, including classroom presentations focused on social skills and character education. The social service worker works individually with students who are at risk because of developmental, academic, or behavioral problems, acting as a liaison between the school, family, and community based agencies. The goal of Joining Forces is to help students succeed at JVS, and to help parents support their child's efforts.

Pregnancy Related Services

All Medicaid eligible pregnant women are eligible to receive Pregnancy Related Services from their medical providers and LCDJFS. These services include counseling, care coordination, and transportation.

Healthchek

The HEALTHCHEK unit administers a federally mandated preventive health care program for children who are covered by Medicaid Services. This unit strives to promote wellness and preventive health care by encouraging regular medical checkups for children and adolescents from birth to their twenty-first birthday. Approximately 26,000 children are receiving these services in Lorain County.

Prevention - Retention - Contingency (PRC)

During July and August 2015, Lorain County implemented a clothing and shoe program for OWF children. Two thousand one hundred and three (2,103) children were the recipients of \$300 vouchers for JC Penney in Elyria. This temporary program met with great success.

OWF Employment and Training

In October 1997, Ohio's welfare reform law created the Ohio Works First (OWF) program. It became the temporary assistance program for needy families. The focus was, and continues to be: prepare families for self-sufficiency within the three year time limit. All OWF adults and minor heads of households are required to participate in work activities which prepare them for self-sufficiency.

LCDJFS provides support and training venues to assist our clientele in overcoming barriers to employment, allowing them to rejoin the work force, and regain their self-sufficiency. We

have entered into contracts to provide employment services for OWF adult participants. Some of our contracted services include:

Common Ground/First Step Program, Vocational Guidance Services/Welfare Out, Retention Kept Program, Goodwill Industries/Goodwill Work for Success: Job training, placement, retention, and EI Centro/Business English and Work Experience Program.

Federal law requires most able-bodied adults enrolled in the Ohio Works First cash assistance program to participate at a minimum, 30 to 35 hours per week in an approved work

activity. Failure to comply, results in a sanction for the household.

States must show that at least 90 percent of adults in two-parent households, and at least 50 percent of all adults are working the required number of hours. Non-compliance by the state results in a potential federal penalty.

Child Support Enforcement

The CSEA has approximately 30,375 open cases to enforce and is ranked as a "metro" county.

Modification

The average number of requests for modification of a child support order is 1,200, an average of 65 active cases per worker. This unit also reviews cases in which the obligee receives public assistance every 36 months.

Establishment

This unit is responsible for the establishment of paternity and child support orders. They also handle genetic testing when appropriate. There is an onsite phlebotomist. These caseworkers process requests for genetic testing and/or support orders.

Enforcement

Each caseworker has approximately 1,819 cases. While this number is large, a new call center began in August of 2014. Experienced enforcement staff now answer phone calls as a full-time job leaving more time for the other caseworkers to administer their caseloads. They monitor the orders and attempt to use various enforcement strategies if the obligor is not making regular payments. The initial technique is the suspension of a defaulting obligor's driver's license. The second

step is a referral to the Prosecutor's office for contempt of court. If all else fails, the case may be referred to the Prosecutor for a charge of felony non-support.

CSEA has the ability to intercept federal and state tax refunds. Specialized workers can intercept lump sum payments from an employer, garnish workers compensation payments and divert money from bank accounts of defaulting obligors.

Fiscal

Made up of data entry, audit and payment corrections sections, the work produced by data entry is very time sensitive. Every entry produced via the Domestic Relations Court and the administrative hearing officers must be entered into the Support Enforcement Tracking System (SETS). Audit requests come from the court and other sources such as state hearings.

Administrative Hearing Officers

CSEA employs one full time hearing officer. The modification supervisor and administrator also conduct some hearings. The hearing officers establish paternity and support orders and conduct various other administrative hearings.
